Application No:	Consultees Name:	Received:	Comment:	Response:
2023/2963/P	Margaret Haines	16/08/2023 15:45:37	OBJ	<p>This is a ludicrous application which covers the properties of resident leaseholders without their permission. At no time have individual Leaseholders been notified of this and seemingly the planning application has been put on lampposts outside the properties and not within them probably in the hope that they will not be noticed and therefore not objected to. To apply for such a change of use while there are residents in the blocks is to put those residents in fear of a lack of security and not knowing who people with apparent access are or what their intentions are when met on the stairwell lift or walkways. This is on top of the dirt disrepair and disadvantages we have suffered over a number of years due to HS2 and the lack of services to the blocks concerned with no offer of recompense or refund of service charge to leaseholders all the while suffering uncertainty as to whether the block will be maintained and if we will be forced out of our homes without adequate provision to purchase something similar. I am [REDACTED] on state pension and registered disabled. I do not need the added stress and uncertainty as to losing my home or being left in it surrounded by strangers whom I will be unable to ascertain as to their right to be in the building and whose increased usage of the lift is likely to render it broken yet again after a recent breakdown of over 6 weeks.</p>
