Subject: Objection to 2023/2510/P and 2023/2653/L

To: Camden Planning

Dear Sirs

This is to object to two connected planning applications, 2023/2510/P and 2023/2653/L.

I am a proud London Blue Badge Guide and frequently take my guests visiting to London to Bloomsbury and the British Museum, where I did some of my training. I know how popular it is.

When I heard about the idea of building a skyscraper so close to the Museum (and St George's), I thought it was a joke. But I hear it is a real proposal.

Based on the images I have seen, it is completely wrong and out of character.

Too tall, too fat. I am sure many of my visitors would be shocked by the idea of putting up such a tall building in the historic centre of London. There would also be damage to the listed buildings on the site.

I gather there is a model of the proposal but I have not been able to find out where it is on display.

I hope that Camden will reject this unsuitable proposal out of hand.

Regards

Zozo Wizman
