Subject: Selkirk house 1 museum street - objection

Dear Planning and Mr Fowler,

I wish to log my objection to 2023/2510P and 2023/2653/L for the following reasons.

The proposed building is too large it will overshadow and overlook the conservation area. The proposed extra floors will be visible from many streets away. The new proposed building must not be allowed to be any taller than what is already onsite.

Environmentally it would be better not to demolish the present building at all but to retrofit it instead.

Yours sincerely

Jo Hurford
