

Powder coated metal to match upper windows

New vertical mullion

New vertical mullion

New non illuminated blad sign in powder coated metal with two sup-
porting, discreet spots either side. Spots to be 3000k and powdercoated
the same colour as the window reveals

Black metal pinned letters
(non illuminated)

Entrance to have same profile detail and
colour as windows

New non illuminated blad sign in powder coated metal with two supporting, discreet spots either side. Spots to be 3000k and powdercoated the same colour as the window reveals

WINDOW AND ENTRNACE
DESIGN DETAIL *(throughout)*

Our intention is to take the current profile and materiality from the windows on the floors above and copy this into our window and door design. Providing continuity throughout the design.
