Recommendations

Overall, it is considered the construction of a side infill and rear extension is acceptable in principle in terms of design and amenity, subject to taking the above recommendations into consideration.

The front extension and terrace are considered unacceptable as it would harm the cohesive appearance of this terrace of properties which contributes to the character of the local area. Therefore, retaining the original elevation is a considered most appropriate. The proposed glazing should be redesigned to ensure it is not full length.

Further information is required regarding the front shed, to determine its acceptability.

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
