2023/2552/P	CRASH	02/09/2023 13:00:39	COMMNT	<p>This OBJECTION is submitted on behalf of CRASH, the residents' association for South Hampstead. Despite an earlier request, Camden appear to be refusing to make public information relevant to this application. In particular, details of the intended work which we assume are contained in the Application Form are not available. CRASH cannot understand why the Application Form is being withheld from the public. Are other related documents also being held back? If so, why?</p> <p>Incidentally, one of the few bits of information made public shows the site on the West side of Priory Road when it is actually located on the East side.</p>
