2023/3419/P	Mr. & Mrs. Bury	04/09/2023 09:41:12	PETITNOBJ E	we would like to object to these works being carried out there is no thought put into this and the harm and disruption it will cause local residents. We are already the heaviest polluted are in the UK these works will do nothing to help this, recent major works have only just been completed next door to this building causing noise and pollution for 2 years there are major works being carried out by Camden in Brooks court waterhouse square adjacent to this Fox court has made a planning application for major works there are major works starting on the corner of grays inn road and farringdon road there are also at least six other major works taking place within a 300 yard radius of the flats that we live in on top of all the smoke and pollution from the recently formed food market in leather lane which they want to expand ( without asking local resident views ) we feel it is time for Camden to start looking after Residents health and safety mentally and physically
2023/3419/P	Bruce Harris	02/09/2023 08:27:51	COMMNT	The new building looks about as cheap and ugly as is possible and is wholly inconsistent with the rest of Waterhouse Square and the surroundings generally. I would say "Back to the drawing board" - and preferably not a computer!
