Comments on the details of the proposed scheme:

Comments are based on the revised drawings received following discussions on site.

The proposed single storey rear extension is considered to be modestly scaled and would be subordinate to the host property, which is a welcome approach.

The proposed timber cladding would match that of the existing garden outbuilding and if applied as proposed could be considered to connect the main house with the garden structure. A sample of this proposed material may be required to ensure suitability. Alternatively brick to match the main host building would be acceptable.

The adjustments the proposed fenestration are considered to be more suitable than the initial proposal, i.e.) the roof light has been re-positioned, the rear window arrangement has been adjusted to match the upper floor window width; and the rear folding arrangement has been clarified to show this as a window as opposed to a doorway. It is noted the upper floors widows to the main house benefit from curved arched openings, which may preferably be proposed at new lower ground floor openings to echo this existing feature of the host building. Additionally further detailing to upper floor windows along this terrace include; glazing bars and more intricate lead work to some of the original window arrangements. It is suggested that the proposed rear window (and other fenestration) could benefit from additional detailing to be in-keeping with the character of the existing properties in the vicinity.

Given the existing mix of materials employed for fenestration throughout the host building, the proposed used of aluminium framed fenestration would appear to be acceptable in this instance. This would also match that of the existing garden outbuilding. As discussed on site, the lower ground floor rear door (not directly connected to this proposal) would benefit from upgrading as part of the overall works. A traditional timber unit would be suggested.

The proposed extension would be designed to incorporate the existing rear external metal stair, railings and balustrade. This would also necessitate some minor adjustment to the rear garden level with introduction of new steps to provide access to the proposed extension erected upon the sunken patio.

The proposed scale, bulk and massing of the proposed extension is considered to be acceptable. The proposed sedum roof to the extension would be welcomed.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

 No

Is any of the land to which the application relates part of an Agricultural Holding?

- Yes
 No

Certificate Of Ownership - Certificate A

I certify/The applicant certifies that on the day 21 days before the date of this application nobody except myself/ the applicant was the owner* of any part of the land or building to which the application relates, and that none of the land to which the application relates is, or is part of, an agricultural holding**

* "owner" is a person with a freehold interest or leasehold interest with at least 7 years left to run.

** "agricultural holding" has the meaning given by reference to the definition of "agricultural tenant" in section 65(8) of the Act.

NOTE: You should sign Certificate B, C or D, as appropriate, if you are the sole owner of the land or building to which the application relates but the land is, or is part of, an agricultural holding.
