Primrose Hill: Planning Application

This letter accompanies a planning application submitted on behalf of the applicant, The Royal Parks, for the following proposed development:

Proposed installation of gates to existing entrances to Primrose Hill open space.

The installation of lockable gates will enable The Royal Parks to more effectively manage Primrose Hill to the benefit of visitors and local residents. They will replace the use of temporary barriers which are currently used for the same purpose, but which are unattractive and prone to damage. The use of permanent gates in this way is already used effectively in other Royal Parks, including Regents Park.

The planning application consists of the following documents:

- Planning, Design and Access Statement
- Heritage Impact Assessment
- Public Engagement Survey Results
- Planning Drawings

The Royal Parks looks forward to working with officers throughout the planning process and is happy to provide any further information in respect of the proposed development which may be required.

Yours sincerely

Rob Schofield
Associate Director of Planning
