**Heritage Statement**

The Maynard Wing, Kings College was first listed on 16 January 1996.

GV II

Student residences. 1889. By Robert Falconer Macdonald. Redbrick with rubbed brick and Roman cement dressings. Tiled hipped roofs with gabled dormers to south front, tall brickchimney-stacks and fishscale tiled clock tower.

2 storeys, attics and semi-basement. William and Mary style.

INTERIOR: plain with rooms arranged off long corridors.

HISTORICAL NOTE: built as a result of an open competition to her provide expanded accommodation for Westfield College. The brief called for a scheme "showing economy with good effect".

**The proposed work**

To add an internal door for the bedroom using the existing opening in the wall by adding a door frame and door. There would not be any damage to the existing fabric, the work would only involve simple woodwork.

The proposed work can improve the energy efficiency so as to reduce energy bills, it can also enhance privacy.

The door will be opened inwards against the wall,

The existing opening is 82cm in width, ceiling height is 2.2m, the door size will be 198.1cm H x 76.2cm W x 3.5cm D.

Please refer to attached photos for better understanding of the current condition:

- floor plan highlighting location of the new door;
- 2 photos showing the existing opening in the wall;
- a photo showing the door is to be opened inwards against the wall;
- look of the proposed door.

**Door Specifications**

**Features**

Door Type Standard Doors

Door Installation Type Slab

Door Design Moulded

Material Wood

Core Type Hollow Core

Wood Construction Type Solid and Manufactured Wood

Finish Type Primed

Door Handing Reversible

Fire Door No

What's Included Door Slab

Country of Origin United Kingdom

Number of Doors Included 1

Trimmable Yes
