2023/3330/P	Sam Green	18/09/2023 00:49:30	SUPPRT	I support this revised application for planning approval. The additional story added in the plans does not look out of place, for example, by excessively exceeding the height of other surrounding buildings. Overall, I think the additional unit is a wise addition to the application. London needs more housing!
2023/3330/P	Strahil Anguelov	17/09/2023 17:49:22	SUPPRT	Empty building are damaging to the local area. This brings badly needed residential accommodation and services, so I support this project.
