The drawing is to be made in conjunction with the full of quantities (specification and any related drawings). Contractors must ensure that all work is done in accordance with the drawing and the relevant standards. The Designer is not responsible for any errors or omissions in the drawing. Any discrepancies must be brought to the attention of the Designer, immediately in writing, prior to the start of construction work.

Any structural work must be carried out in accordance with the appropriate specifications and any related drawings. Contractors must ensure that all work is done in accordance with the drawing and the relevant standards. The Designer is not responsible for any errors or omissions in the drawing. Any discrepancies must be brought to the attention of the Designer, immediately in writing, prior to the start of construction work.

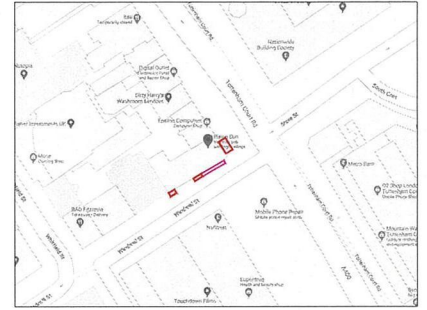

All work must be carried out in accordance with current local, UK, and European standards. It should be the responsibility of the contractor to contact the relevant authorities.

Under the guidance of CDM 2015, the Designer will not commission any work involving the erection, alteration, or demolition of any structure, or the carrying out of any other work, unless the design is completed under the direct control of the Designer.

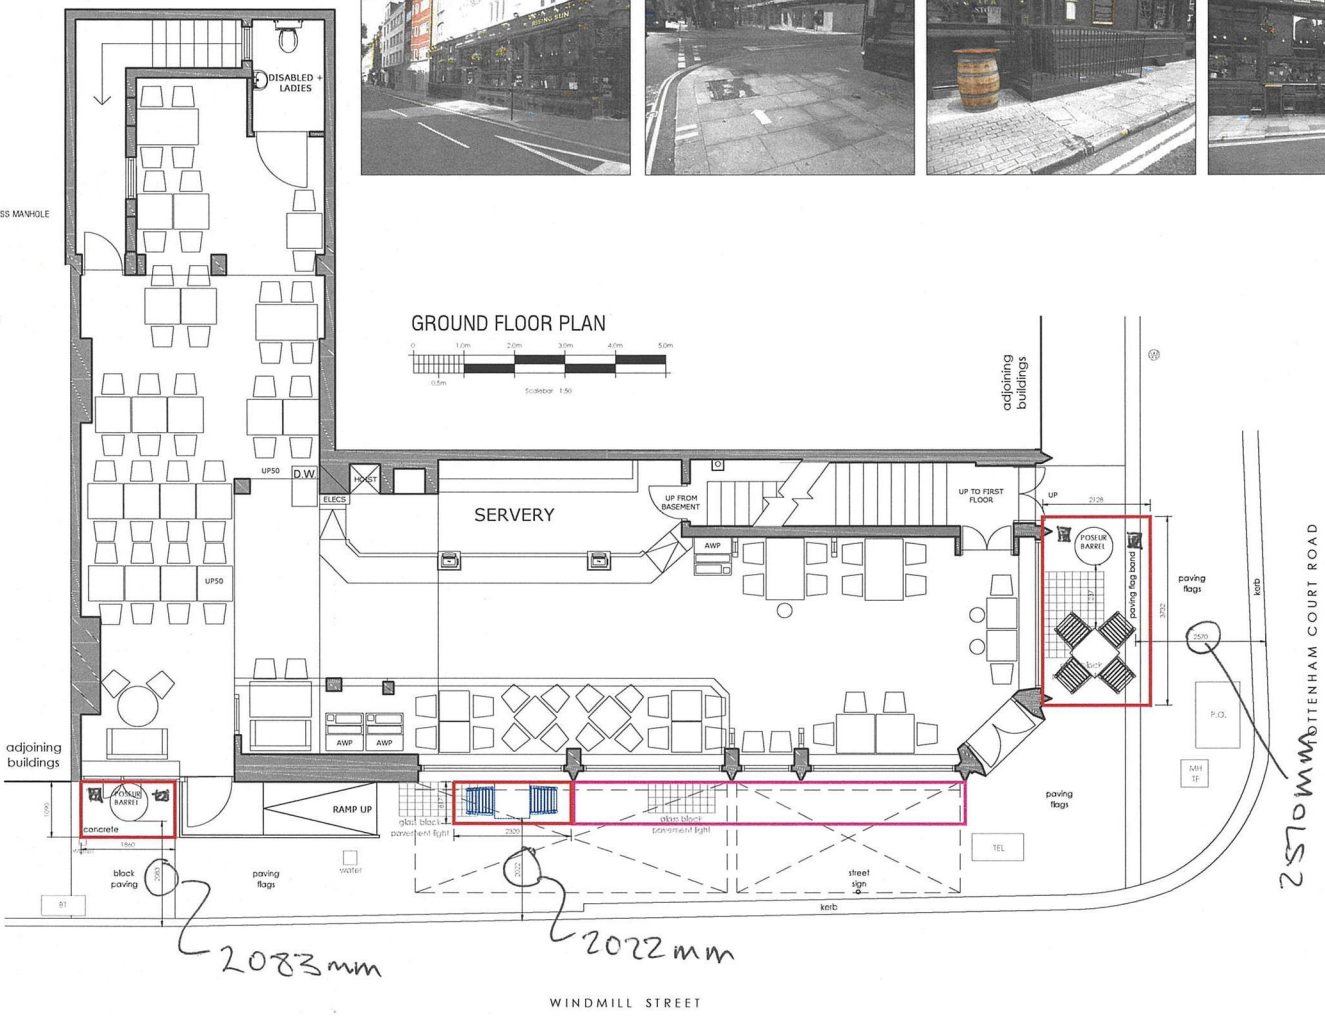

The Designer is not responsible for any errors or omissions in the drawing. Any discrepancies must be brought to the attention of the Designer, immediately in writing, prior to the start of construction work.
