Description of the Proposal

Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

The site is offering a rare opportunity to create a unique family home for a couple - a designer and an architect and their 2 young children- in a quiet area, remote from the traffic.

The proportion of the property is not conventional. The footprint of the building is triangular. However, the layout proposed and the space available allow for a generous living area in a double-height space. The arrangement provides outlook from the main daytime spaces - study area, kitchen, and living room- towards the South and East glazed façade, and the private external amenity space.

Large integrated pieces of joinery along the perimeter walls will provide the required storage space while keeping the central area as a large open space.

Those joinery elements are "dilated" to incorporate a utility room and a bathroom.

The appropriate level of natural light is achieved thanks to roof lights, arranged in a staggered fashion to introduce variations in the way the light will define the space.

The ground floor parental double bedroom is separated from the living room by a glazed partition (FR30min) and integrating timber shutter to provide privacy (acoustic and visual separation) when required. This arrangement offers a double-aspect experience for the bedroom that also includes a roof light for a view of the sky.

Rooflights are included in the in-suite bathroom to provide natural light and natural ventilation in addition to the mechanical extraction.

A key feature in the layout is the spiral stair. Located in a central position, the sculptural vertical circulation leads to the 2 first-floor single bedrooms. The south bedroom has an area of 13.6 sqm and double aspect with 2 large windows. The North bedroom has an area of 12.8sqm and includes an additional 2.1sqm storage located at the tip of the trapezoidal room shape.

Outdoor private garden

The aim is to maximise soft landscaping with plants and shrubs in large planters arranged in the spirit of traditional Camden mews. This flexible arrangement will contribute to biodiversity, and water retention and limit the heat island effect. It will also provide the necessary buffer area and privacy between the property and the rest of the mews.

The Air Source Heat Pump (ASHP) outdoor unit is located along the South wall separating the mews from the properties on Leighton Road.

The bicycle storage is located in the car park bay and will be surrounded by planters to reduce the visual impact of the ASHP and the storage.

Title

Date (must be pre-application submission)

Details of the pre-application advice received

The previous owners had submitted a pre-planning application.

The latest advice from Kristina Smith dated 14 August 2023 is as follows:

"The conversion is acceptable in principle but the marketing evidence undertaken by your seller should be provided with the application."

Conclusion of the comments on the pre-planning application (late 2022 or early 2023): "It has not yet been satisfactorily demonstrated that the site is no longer suitable for continued business use in accordance with policy E2. However, via the provision of further information including more narrative on its recent history and the context of the mews, this may be possible and may allow for flexibility on the two year marketing exercise rule.

If a residential unit were to be supported here, an affordable housing contribution would be required

and an estimate based on the additional floorspace currently proposed by the pre-application proposals has been included in this advice.

The quality of residential accommodation proposed appears to be acceptable."

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
