I live next to Hillfield Court and have respiratory problems. The trees on this estate are very important to me and my family as one of the few areas of mature trees to help filter the pollution created by the road traffic all around. We need these trees, our children need these trees. The Ash tree and the Norway spruce could be trimmed if there's a problem, not 'felled to the ground' We all know that planting more trees somewhere else is not a solution - please do not agree to this application.
