2023/2914/P	karaca mestci	07/10/2023 12:36:12	INT	Hello, primrose gardens in a conservation area and while it is totally normal for an extension, we are applying for one, a roof terrace on the extension has never been accepted historically on our street. This would be a total invasion of privacy of the next door neighbours. I know various applications that have been refused in the past and I don't think the council should allow a roof terrace on the extension.
