2023/3285/P	Susan Torry	03/10/2023 10:29:01	OBJ	2006/2680/P and 2011/3285/P :To safeguard the amenities of the adjoining premises and the area generally in accordance with the requirements of policies of DP26 and DP28 of the London Borough of Camden Local Development Framework Development Policies Document. I don't see how anything has changed from the condition to not disturb the local area and residents. The Forge has already been functioning with huge crowds spilling out in the early morning hours onto the pavement and roadway of Delancey with no crowd control, and not enough security. There is photo evidence of this. Mounds of rubbish on the terrace. There is already enough late night ASB in Camden, and surrounding residences with more 3 am music venues and late liquor licences seems to be placing focus the wrong direction. Arlington Road between Parkway and Delancey now enjoys large, noisy groups moving between the venues not to mention the free parking on Arlington which provides pre and post clubbing party spots.
2023/3285/P	Katherine Churcher	04/10/2023 23:14:13	OBJNOT	We are local residents living close to the venue and strongly object to this application to extend the operational hours to play live and recorded music. The venue already, with its current hours and usage, causes an enormous amount of disruption late at night. It will be a greater blight on the area if these extended hours are allowed and other changes made.
2023/3285/P	Craig Duncan	03/10/2023 08:47:49	OBJ	The present iteration of this venue has been a disaster through terrible planning and mis-management. I would advise strict guarantees to be obtained before proceeding!
2023/3285/P	Frances Parsons	03/10/2023 09:03:10	OBJ	This is a residential area and therefore having a venue where people are leaving at such times at night and early in the morning mean lots of noise, people shouting, cars being started and general disturbance in the area. People attending the venue already park in our street and we have been disturbed by comings and goings late at night.
