Drawing Nos: Floor Plan Drawing, North Elevation Drawing, West Elevation Drawing, South Elevation Drawing, East Elevation Drawing, Section A-A Drawing, Section B-B Drawing, Cutting List Diagram, Heritage Statement (04/04/2023) and Site Plan

The Council has considered your application and decided to grant permission subject to the following condition(s):

Condition(s) and Reason(s):

- 1 The development hereby permitted must be begun not later than the end of three years from the date of this permission.

Reason: In order to comply with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 The development hereby permitted shall be carried out in accordance with the

following approved plans: Floor Plan Drawing, North Elevation Drawing, West Elevation Drawing, South Elevation Drawing, East Elevation Drawing, Section A-A Drawing, Section B-B Drawing, Cutting List Diagram, Heritage Statement (04/04/2023) and Site Plan

Reason: For the avoidance of doubt and in the interest of proper planning.

- 3 All new external work shall be carried out in materials that resemble, as closely as possible, in colour and texture those of the existing building, unless otherwise specified in the approved application.

Reason: To safeguard the appearance of the premises and the character of the immediate area in accordance with the requirements of policy D1 and D2 of the London Borough of Camden Local Plan 2017.

Informative(s):

- 1 Reasons for granting permission.

The proposal is for the replacement of windows to the front, side and rear of the site, with matching double-glazed windows. Integral glazing bars are included in all of the new windows (to match the existing) which is welcomed due to the site's status as a positive contributor to the conservation area. This ensures that the proposal would match as closely as possible the design and proportions of the original windows.

In sustainability terms, double glazed units are noted as having the potential to reduce energy costs, provide more thermal efficiency and insulation, offset the need for powered heating and so help reduce carbon emissions, and allow for passive flow of ventilation. There are no amenity concerns as the proposed windows would replace existing windows.

The proposal is therefore acceptable. The proposal is considered to preserve the character and appearance of the Dartmouth Park Conservation Area.

Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the Conservation Area, under s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act 2013.

The proposal would not cause any adverse impacts on the amenity of adjoining residential occupiers in terms of loss of light, outlook or privacy.

No objections were received prior to making this decision, Dartmouth Park Conservation Area Advisory Committee did not were consulted and did not comment on the proposals. The planning history of the site has been taken into account when coming to this decision.

As such, the proposed development is in general accordance with policies A1, D1, D2 and CC1 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2021 and the National Planning Policy
