

Typical / Draft Review of audience arrangements for an events venue

180 Arlington Rd, London NW1 7HL

An investigation has been undertaken into the audience access and egress routes to and from the proposed temporary event venue to be located at 180 Arlington Rd, London NW1 7HL.

It is proposed that arrivals and departures are split over the course of up to 13 hours per operational day to allow for availability of local transport connections, as well as to reduce the immediate impact at security checks and entranceways.

Arrivals - Public Transport (Underground)

Orange Route – Risk Assessment

Number of road crossing points – 1

Crossing Point Designation	Description	Relative Risk Factor
A Station Exit	<ul style="list-style-type: none"> • Eastern exit from Camden Town station • Street lighting 	n/a
A > B Cross Camden High Street	<ul style="list-style-type: none"> • Wide pavements in good condition • Manual crossing point at Camden High Street • One way road (from south) • Audience members to hold at the lights on the pavement • Street lighting 	2
B > C Parkway	<ul style="list-style-type: none"> • Wide pavements in good condition • Street lighting • Existing entertainment offering (Odeon) • Existing catering offering (Starbucks) • Parking spaces 	1
C > D Parkway to Arlington Road	<ul style="list-style-type: none"> • Narrow pavements in good condition • Street lighting • Parking to roadway 	1
	Total Score	4
