Subject: The Brunswick Planning Application No.2023/3901/L

I am a resident of The Brunswick. Lazari Investments have made a Planning Application for a hotel to be built underneath our flats.

This application is very hard to find on your website, even if I enter the planning application number, or other details in your search bar. It is such an important decision for the residents at The Brunswick, but very few residents know about it, or are able to find details easily if they wish to object. I was only notified of it by a friend who lives outside this district.

Shouldn't Camden Council notify all the Brunswick residents of this Planning Application. The decision will affect all our lives.

Yours sincerely

Jack Bond
