We note this is a retrospective application for a listed building. As such we note: ¿It is a criminal offence to carry out work which needs listed building consent without obtaining it beforehand.¿

The proposed projecting sign is internally illuminated and has an ugly appearance. It is a predominately white light box with small black lettering. We would expect a sign on this listed building to be externally illuminated.

We also consider the brightness of the lightbox to be visually intrusive and has a negative effect on the amenity of nearby residents.

The application should be refused because its design and appearance are unacceptable on this listed building and will have a negative effect on the appearance of not only this building but on its neighbours, and also on the amenity of residents.
