2023/3015/P	Josi Steinfeld	14/10/2023 10:02:00	OBJ	<p>So far we have not been informed of the proposal and its physical form. Nor any financial compensation. All that we have received to date is some vague proposal for a cable to be laid through the entrance tarmac with a cable up the side of the building, which will be very unsightly, and look awful as one enters the building. This is the first that we have heard of this. It was also supposed to have been dealt with by Fifield Glyn, the managing agents, to whom we have complained about this and asked for further information, but we have had no information from them, nor did they even inform us of the application. As we have only just discovered this, as one resident saw this small notice, there will be further objections.</p>
2023/3015/P	Josi Steinfeld	14/10/2023 22:55:31	OBJ	<p>Further objection</p> <p>No consultation has taken place between the Applicant and the Residents Association concerning the positioning of equipment, which is essential as we have a major works programme due to start in November 2023 which will include works to the roof, rooflights and extract ducts. There may be a need to site the equipment in a different location on the roof which - as the building is in a conservation area - may require a new or varied application.</p> <p>I am a director of the Hampstead Grove Residents Association (HGRA), and HGRA has given no consent for these works, without which no equipment can be added to the roof without HGRA permission, irrespective of any planning consent.</p>
2023/3015/P	Tim Drewett	14/10/2023 22:53:37	OBJ	<p>No consultation has taken place between the Applicant and the Residents Association concerning the positioning of equipment, which is essential as we have a major works programme due to start in November 2023 which will include works to the roof, rooflights and extract ducts. 2023/3015/P	Georgia Samolada	14/10/2023 16:28:23	COMMNT	<p>We - Haverstock Grove Residents Association- have been requesting information on this installation and are yet to have a response to questions around the impact of the installation on the site. We have also not had any response around compensation to the building. Given the contractor has not engaged in a responsive manner to the residents associate for Romney Court it would be inappropriate to proceed given our concerns and the absence of a response.</p>
2023/3015/P	Nabil Hawie	14/10/2023 16:40:13	OBJ	<p>I live in this block and I have not received any notification of this. I strongly object to it. There are no details of the visual or logistical impact on my daily life here. Also are we to be compensated financially?</p>
2023/3015/P	Andrew Day	14/10/2023 16:17:02	COMMNT	<p>We - Haverstock Grove Residents Association- have been requesting information on this installation and are yet to have a response to questions around the impact of the installation on the site.
