Subject: Planning Application: 60-61 Warren Street, W1 - ref: 2023/3076/L

Dear Neil,

Re: Planning Application: 60-61 Warren Street, W1 - ref: 2023/3076/L:

I hope you are keeping well.

I just wanted to let the Planning Team know that in due course I will be submitting our objections and comments on behalf of CSA, with regard to this (retrospective) application **ref: 2023/3076/L**. The application concerns the painting of the brickwork of the front facade of this listed building.

The website gives the case officer as Fast Track TC, and so I was not sure who to contact. The **Comment Date is given as 5th November**; and I will submit our objections and comments by this date.

I realise that there are also other current applications for these premises. My colleague, Linus Rees has recently submitted our CSA comments/objections, concerning these other applications, which are:

(a). 2023/3092/P and 2023/3868/L:
re: installation of external and internal air-conditioning units (retrospective).

(b). 2023/3091/A and 2023/3077/L:
re: projecting light box sign (retrospective).

Kind regards

Clive,

Clive Henderson
Charlotte Street Association/CSA

(my mobile: please note that due to a sim card fault, I am not able to receive calls/texts at present).
