**Subject:** Removal of Conifer 2022/3225/L & 2022/2603/P- 150 Grove End House

Dear Dan,

I am writing to you regarding a Conifer Tree located in front of Grove End House that we would like to remove as it is likely to issues with the house as it grows into a mature tree. We have taken advice from a specialist who agrees the tree is of concern. The trunk is less than 75 cm at 1.5m but the tree is quite tall.

Please see pictures attached below.

The garden at Grove End House is a mature garden with several trees including a mature Bay, Cherry, several Pittosporum, Magnolia, Olive, Ceanothus, amongst others.

I would be grateful if you could get back to me regarding this and understand if I have not heard within six weeks I will be able to remove the tree without it being an issue for the council.

Kind regards,

Kelly Pawlyn
