Subject: 2023/4388/P. Basement Flat 313A Royal College Street London NW1 9QS

As this application was registered on 17-10-23 with Comments until 17-10-23 and the planning alerts email did not come out announcing it until 18-10-23, this seems very underhand and dubiously legal?

It should be noted that several historical planned works for this property have been denied - often on account of the negative implications that would be experienced by its immediate neighbours - especially those living in Durdans House.

For this specific one, objections were raised on several issues with requests to meet in person with the planning officer totally ignored.

For this permission to be rushed through without (again) any chance for further scrutiny or comment seems very wrong!

Please take this as a formal objection, and application for further information and a chance for feedback to be given.

Many thanks

Craig Duncan

Chair - Durdans House TRA
