

Caroline Roboh

Reference – Tree Report

Dear Caroline,

Please see my report on the Rowen Tree in the rear garden of your property.

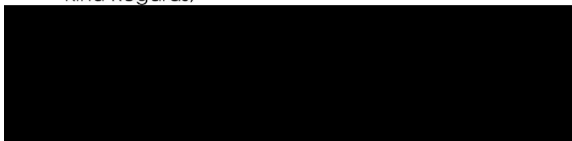

The Rowen Tree in the rear garden seems to be in severe decay. The whole tree appears to be very brittle. The Rowen tree is also heavily leaning towards neighbouring properties. If the root plate or any part of the tree was to fail it would cause a huge amount of damage. I am not completely sure what has caused the huge amounts of decay but the tree is definitely deemed unsafe and dangerous due to its condition, heavy lean and location. I would strongly recommend this is removed as soon as possible to prevent any damage etc.

If you have any further questions, please do not hesitate to contact me.

If you have any questions, please do let me know.

Look forward to your reply,

Kind Regards,

Olly Withers
Director
