Subject: 31 Pilgrims Lane, 2023/4520/T

The Hampstead Neighbourhood Forum has the following comment to make on application 2023/4520/T:

The mature lime at 31 Pilgrim's Lane is one of a line of trees giving Pilgrim's Lane its leafy, green aspect. Its loss will be noticed in the streetscape. We would urge that a suitable replacement tree be planted in its place, a tree that would complete 'the line' such as a fastigate lime or hornbeam — something that would become tall and dense but slim, and that would require little surgery in the future and be suitable close to a building.

With thanks,
Alex Nicoll
