Your ref: 2023/3870/P
Our ref: NW 7722
(24/10/2023)

Good afternoon,

Thank you for allowing me to comment on the **change of use of part of basement car park and one ground floor retail unit to hotel with ancillary food and beverage use, including alterations to upper basement floor slab, installation of plant, acoustic enclosures and PV panels at roof level, and associated works** at the **Brunswick Centre Estate Brunswick Centre London WC1N 1AE**.

The site falls within the policing ward of Bloomsbury. The top reported crimes for this ward for the month of August 2023 (taken from the police UK website) are other theft, theft from the person, antisocial behaviour and violence and sexual offences. Other crimes of note within this area are robbery, burglary and bicycle theft.

I have had previous meetings in regards to this development from the architect.

Please refer to Appendix A for illustration of crime figures and local as well as national planning policy

I do not object to the proposal but also have the following comments and recommendations:

- The main entrance from street level to be security rated to either LPS 1175 Issue 8 B3 SR2 or STS 202 BR2.
- The cycle and luggage stores should have security rated doors to protect the items contained within. Due to the fact that the stores are accessed from the staffed reception lobby I recommend a minimum rating of either PAS24:2022 or LPS 2081 SRB. The LPS door is steel and will withstand knocks and bumps from customer's bicycles and luggage.
- Currently the proposal indicates that non-guests will have access to the food and beverage area during the restaurants core business hours. It is strongly recommended (if not already a

part of the standard operations/management) that doors to this area be closed and access controlled overnight. I recommend that the doors be security rated to PAS24:2022.

- PAS24: 2022 front doors for internally accessed residential units. It is recommended that these be triple certificated for security, fire and smoke. Spy holes to be part of the door set up.
- CCTV with complimentary lighting. A formal, overt CCTV system should be installed and maintained by a member company of either the National Security Inspectorate (NSI) or the Security Systems and Alarms Inspection Board (SSAIB). Any such company will install a system to the British Standard. Images should be retained for a minimum of 30 days. This system would need to be registered with the Information Commissioner's Office, as it could/would be recording public areas. Appropriate signage indicating this fact needs to be displayed.

It is strongly recommended that this location have security rated products to mitigate against the risk of theft and other forms of acquisitive crime to provide some protection for staff and guests that will frequent this location.

I strongly recommend that the following conditions be placed upon this application.

- 1. Prior to construction proof that the plans can achieve secured by design accreditation must be submitted to the design out crime officer and local planning office.**
- 2. For the site to achieve a secured by design accreditation to silver award and to maintain this standard through the life of the development.**

Further consultation is required in the pursuit of achieving SBD certification for the development. If yourself or the applicant wishes to discuss any of my recommendations further then please feel free to contact me. The advice I have provided has been taken from the following guides:

https://www.securedbydesign.com/images/HOMES_GUIDE_2023_web.pdf

https://www.securedbydesign.com/images/COMMERCIAL_GUIDE_2023_web.pdf

The advice has been adjusted taking into consideration crime statistics and analysis of the area. Further consultation is required in the pursuit of achieving SBD certification for the development.

Kind regards

Aran

Section 17 of the Crime and Disorder Act 1988

“It shall be the duty of each Authority to which this section applies to exercise its various functions with due regard to the likely effect of the exercise of those functions on and the need to do all it reasonably can to prevent Crime and Disorder in it’s area”, as clarified by PINS953.

The NPPF and Camden’s own local guidance can support this proposal:

Section 91 of the NPPF states:

Planning policies and decisions should aim to achieve healthy, inclusive and safe places which..

b) are safe and accessible, so that crime and disorder, and the fear of crime, do not undermine the quality of life or community cohesion – for example through the use of clear and legible pedestrian routes, and high quality public space, which encourage the active and continual use of public areas;.....”

Section 127 of the NPPF further adds:

Planning policies and decisions should ensure that developments..

f) create places that are safe, inclusive and accessible and which promote health and well-being, with a high standard of amenity for existing and future users, and where crime and disorder, and the fear of crime, do not undermine the quality of life or community cohesion and resilience”

Taken from the Camden Supplementary Guide to Design (January 2021 revision)

- *The Council requires that developments demonstrate that they have been designed to contribute to community safety and security.*
- *Security features must be fully considered and incorporated at an early stage in the design process.*
- *Designing-against crime features, safe access and security measures must complement other design considerations and be considered as part of a holistic approach to designing and maintaining safer environments for all.*
- *Better designed environments support safer and healthier communities.*
- *Consideration will be given to the impact of measures on the surrounding area to ensure that there is not displacement of activity into surrounding neighbourhoods.*
- *Safer environments support healthier communities.*

In accordance with Local Plan Policy C5 Safety and Security, the Council will require applicants to demonstrate that all impacts of their proposal on crime and community safety have been considered and addressed. Applicants should be able to demonstrate that they have consulted Met Police

Designing Out Crime Officer (details of which can be found at www.securedbydesign.com) and that proposals take into account the advice given and achieve Secured by Design certification, where appropriate.

Policy C5 Safety and security (From the Camden Local Plan)

The Council will aim to make Camden a safer place. We will:

- (a) work with our partners including the Camden Community Safety Partnership to tackle crime, fear of crime and antisocial behaviour;*
- (b) Require developments to demonstrate that they have incorporated design principles which contribute to community safety and security, particularly in wards with relatively high levels of crime, such as Holborn and Covent Garden, Camden Town with Primrose Hill and Bloomsbury;*
- (c) Require appropriate security and community safety measures in buildings, spaces and the transport system;*
- (d) Promote safer streets and public areas;*
- (e) Address the cumulative impact of food, drink and entertainment uses, particularly in Camden Town, Central London and other centres and ensure Camden's businesses and organisations providing food, drink and entertainment uses take responsibility for reducing the opportunities for crime through effective management and design; and*
- (f) Promote the development of pedestrian friendly spaces.*

We strongly encourage security features to be incorporated into a scheme from the beginning of the design process and complement other key design considerations. Internal security measures are preferred. Further information on designing safer environments is set out in our supplementary planning document Camden Planning Guidance on design.

It is important to take a proactive approach at an early stage to reduce risks and opportunities for crime and ASB to occur, rather than relying on reactive measures such as

CCTV, which should only be used as part of a package of measures to reduce crime. Incorporating designing out crime features into a development should complement other key design considerations and high quality architecture and design should still be achieved.

Considering good design early in the design process will lead to a better quality development overall.

The design of streets, public areas and the spaces between buildings needs to be accessible, safe and uncluttered. Careful consideration needs to be given to the design and location of any street furniture or equipment in order to ensure that they do not obscure public views or create spaces that would encourage antisocial behaviour. The use of the site and layout should also be carefully considered as these can also have a major impact on community safety.

From the Camden local plan;

“Camden’s food, drink and licensed entertainment premises contribute to the attractiveness and vibrancy of the borough but, where there is a concentration of late night activity, there can also be problems such as noise and disturbance, littering, antisocial behaviour, crime and violence. The cumulative impact of these uses will therefore be assessed in line with our town centre policies, particularly Policy TC4 Town centre uses and Policy A1 Managing the impact of development. The Council will also take into consideration any concerns raised from stakeholders within adjoining areas beyond Camden’s boundaries. Alcohol related crime and late night disorder have been identified as significant issues, particularly within Camden Town and the Seven Dials area of Central

London. Camden’s Statement of Licensing Policy sets out the Council’s approach to licensing and special licensing policies apply to these areas.”

Line graph showing the number of crimes over the last twelve (12) months for Bloomsbury ward.

Crime types description

for the last 12 months (from Sep 2022 to Aug 2023)

Bar chart indicating the types of recorded crimes over the last twelve (12) months on Bloomsbury ward

Anti-social behaviour	1692	18.1%
Bicycle theft	226	2.4%
Burglary	268	2.9%
Criminal damage and arson	188	2%
Drugs	150	1.6%
Other theft	2833	30.3%
Public order	347	3.7%
Robbery	318	3.4%
Shoplifting	272	2.9%
Theft from the person	1849	19.8%
Vehicle crime	297	3.2%
Violence and sexual offences	868	9.3%
Other crime	36	0.4%
Possession of weapons	13	0.1%

Number of crimes on Bloomsbury ward over the last twelve (12) months

The primary objective of an efficient Police Service is the prevention of crime

Crime Prevention advice can be found on the Metropolitan Police Service Website –

<http://content.met.police.uk/site/crimeprevention>

(Crime figures obtained from www.police.uk and are as most recent as available)

'Crime prevention advice is given freely without the intention of creating a contract. Neither does the Metropolitan Police Service take any legal responsibility for the advice given. You must abide by the fire and safety regulations and if you are in any doubt consult the Fire Prevention Officer and the Council's Building Control Officers.'
