

Application No:	Consultee Name:	Received:	Comment:	Response:
2023/3870/P	Mary Sutherland	24/10/2023 09:32:33	OBJ	<p>I wish to object to plans for this hotel for the following reasons:</p> <p>The Application does not fully detail how noise, vibration, etc. will be kept to acceptable levels so as not to interfere with the daily lives of the residential occupiers of the building. There are no proposals for independent noise and vibration monitoring during the construction or any detailed proposals for liaison and communication with the residents.</p> <p>I also think that photovoltaic panels (for the hotel exclusively, I understand) will be ugly and visible on the roofs of both Foundling and O₂Donnell.</p> <p>And I understand that the air source heat pumps (for the hotel exclusively, I understand) are large and noisy, and the plantrooms are also to be situated on the roofs. I cannot believe this is permitted with a Listed building.</p> <p>Points such as these were raised at a public meeting on July 2023 and the Applicant reassured residents that they are doing everything they can to ensure that the construction process is transparent, proactive and mitigates any potential impact on neighbours. I cannot agree that this has been done.</p> <p>And no mention has been made of any recompense to residents for literally having to live in a building site for 18 months.</p> <p>Painting the inside to match the outside? Fibre broadband? Extending the photovoltaic panels for the benefit of the residents, not just the hotel? Etc Etc.</p>
2023/3870/P	Krishna Manandhar	24/10/2023 16:05:20	OBJ	<p>I am a resident of The Brunswick. I have been living here for more than 40 years. I object to this planning application because:</p> <p>It would not be appropriate for the well-being of the residents: apart from the noise and pollution during the long works, there is also the risk to our security. In particular the frequent access to all the floors to the hotel customers, via the communal lifts. These lifts are already overloaded with only four lifts serving 500+ flats and the associated deliveries. I do not feel safe about this hotel development in our basement. Hence my objection.</p> <p>Krishna Manandhar</p>
