Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

Informative(s):

- 1 Reasons for granting consent:

The proposals involve the installation of additional and replacement external lighting to the existing fourth floor terrace which serves the University's Student Union bar. The application site forms part of the Institute of Education building which is Grade II* listed. The lighting would consist of replacement low-level lighting as well as new emergency lighting installed along the terrace wall. These would utilise existing routes. In addition, new floodlighting is proposed on the façade which would involve new routes within the fifth-floor terrace above. The additional lighting is required due to ongoing health and safety issues on the terrace and the existing lighting is considered insufficient.

The low-level and emergency lighting would be concealed in views from the public realm and would supplement existing light fixtures. The proposed fixtures would be similar to the existing, and would not dominate the terrace wall. The floodlights, given the overall size and scale of the building, would not harm the appearance of the building and would not dominate the façade. They would be fixed to the building through clamps rather than screws so as not to damage the fabric of the building. The new routes at fifth floor would be minor in nature and are not considered to harm the fabric of the listed building. Given the lighting is required for improved safety and security, the proposals are considered to be acceptable in this location and instance.

Special regard has been attached to the desirability of preserving the listed building, its setting and its features of special architectural or historic interest, under s.16 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act 2013.

Historic England confirmed that they had no comments on the proposals. No objections have been received prior to making this decision. The planning history of the site has been taken into account when coming to this decision.

As such, the proposed development is in general accordance with policy D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2021 and the National Planning Policy Framework 2023.

- 2 You are advised that any works of alterations or upgrading not included on the approved drawings which are required to satisfy Building Regulations or Fire Certification may require a further application for listed building consent.

No 020 7974 4444). Licences and authorisations need to be sought in advance of proposed works. Where development is subject to a Construction Management Plan (through a requirement in a S106 agreement), no licence or authorisation will be granted until the Construction Management Plan is approved by the Council.
