

Weston Hall Farm, Weston, Otley, LS21 2HP
M: 07590851401 E: helen@greenroofs-naturally.co.uk

- Waterproof membrane usually installed by others.
- Protective fleece layer installed with our sedum mats placed on top.
- Green roofs naturally sedum mats are made up of:-
- 35mm profiled foam which is made from 100% rebonded and recycled inert materials.
- The foam mat has a density of 80kg per square cubed.
- Each foam mat has an “egg box” profile 25:10mm to allow free drainage.
- The sedum mats are 50cms by 50cms and will absorb 12x their own weight in water.
- The mats are fully dimensionally stable.
- On top of the foam lies 40mm of substrate on which the sedum grows.
- When fully saturated 1m² of sedum mat weighs 56kg.
