NOTES

- 1 These are the details of the existing Type3 windows.
- 2 Permission should be sought from the listing authority to carry out any work on the windows.
- 3 The box depth needs to be confirmed on site. Plaster has not been removed to ascertain this thickness.
- 4 It is critical that the plaster reveal on the outside (ie the amount of frame showing beyond the render), is maintained.
- 5 It is hoped that the listing authority may agree to the fitting of some draught seals following consultation.
- 6 Some details like that at the cill are weak. It would be advisable to consult with the listing authority as to whether some changes can be made.
