TITLE:
Existing modern windows
Type 6 (to be replaced)

DWG NO. ST-GU-185	REVISION A	 THIRD ANGLE PROJECTION SHEET 1 OF 2
----------------------	---------------	------------------------------------------------------------------------------------------------------------------------------------

NOTES

1 These are the details of the existing Type6 windows which it is hoped will be replaced.

2 Permisssion should be sought from the listing authority to carry out any work on the windows.

3 The box depth needs to be confirmed on site. Plaster has not been removed to ascertain this thickness.

4 It is critical that the plaster reveal on the outside (ie the amount of frame showing beyond the render), is matched with the Type3 windows on the second floor if these windows are replaced.

5 It is hoped that the listing authority may agree to the fitting of some draught seals following consultation.

6 Some details like that at the cill are weak. It would be advisable to consult with the listing authority as to whether some changes can be made.

TYPE6 WBF4
