Dear sir or madam I wish to object to the proposal to build a hotel in the basement of the Brunswick Centre. My reasons are as follows the project will be noisy dusty add to a OUR already polluted air We have many residents who suffer from mental health issues and the noise will be detrimental to their mental well being. Apparently noisy condensers will be installed on the roof which will affect residents on the 7<sup>th</sup> floor. Our community has enough noise at present with all the food outlets that are operating till the early hours of the morning I hope you will consider these points as the residents mental health must be given priority over profits and asthma and copd sufferers do not need to have an already existing health condition made worse . Young children need a healthy environment in which to live and the older and more vulnerable members of our community need a bit of peace and quiet as some residents also suffer from agrophobia Thank you for your attention to this email Patricia Macdonald
