As a resident of the Brunswick Centre I want to register my objection regarding the planning application to construct a hotel in the basement of the Brunswick Centre and the proposed works at roof level. I know the building is listed and its listing should be respected. The proposed work will damage the Brunswick Centre with regard to its overall heritage, which greatly concerns me.

As I live in Foundling Court in sheltered housing I am also worried by the very high probability of extreme noise and vibration from the construction over a long period of time. I have already suffered day to day disruption during fitout works to several of the shopping units underneath the flats. Our flats are not double glazed and already suffer from noise due to the busy nature of the surrounding area so I am also very concerned about the additional noise from the construction traffic.

The impact on all the residents of the Brunswick Centre will be immense and their wellbeing must be given full and due consideration by Camden Council and the application should be refused.

Yours sincerely

Robert Davenport
