| 2023/3390/P | Hampstead CAAC | 01/11/2023 22:46:18 | OBJ | <p>HCAAC considers the top dormer fenestration should match the immediate neighbour's. The joining of the proposed to neighbour's dormer is accepted but with the above condition. The proposed cladding and window combination are dominant compared with the existing neighbours' dormers.</p> <p>Works on site are already well-advanced, although, with the exception of the above, not apparently under threat of refusal of the whole application. Front wall proposals are acceptable.</p> |
