Dear Camden Development

I am a lucky local person who enjoys trees, when I can find them in my area. Here they are - 10 of them. That is why I am writing to object to the uprooting of these 10 trees to create a huge building to replace the Travelodge on 1 Museum Street WC2.

What about asking these builders to accommodate its existing environment instead of the other way around.

There are going to be flats built in this building and most tenants like trees, it's a good selling point too after all trees are the lungs of life.

Camden Development please ask the Architects to go back to their computers and make this huge building to be built back a few meters to accommodate these beautiful noble trees, and if that means it has to be smaller too - so be it .

Yours Sincerely

Eleanor Davies
