Subject: Brunswick Centre hotel planning application

Ref: 2023/3901/L & 2023/3870/P

Kindly note my partner who lives in the Brunswick Centre is completely intimidated and anxious about proposals to build a hotel in the basement and install plant facilities on the roof. The distress is such that they have frozen into inaction and I believe missed the deadline to make representations against the plan.

From what I understand it's proposed to remove one of the membrane floors. This will cause the two buildings to slowly move together. The floors are integral to the building's structure and must not be interfered with.

The Brunswick Centre's walkways were never designed to accommodate additional numbers of visitors with suitcases.

I am concerned about unwanted noise from plant on the roof.

Please be aware residents may like to express their opinions about the proposals only for one reason or another have not been able to respond.

Yours sincerely

Stephen King
