Subject: Daleham Dreaming SUPPORT

Dear Camden Planning,

We FULLY SUPPORT Daleham Dreaming.

It is unfortunate that this planning has met with some objection and our personal experience of meeting and hearing from members of NW3 CLT leaves us puzzled why this should happen.

While we understand that property developers may prefer another approach, Hampstead and the surrounding area is very sadly becoming an area that can only be accessed by the wealthy or the very well connected. As long term residents, we value what used to be a wider neighbourhood mix of socio economic groups across professions, age ranges, if not ethnicities (sadly lacking) which seems to be changing in favour of the well to do only. Already the neighbourhood has lost care homes, housing for key workers, council housing to private ownership. This doesn't feel healthy or bode well for the future. Our neighbourhoods are so much stronger when the social groupings are mixed and learn to get along together in the space in which we all live.

We urge you to favour the NW3 CLT application for 31 Daleham Gardens.

With all best regards,

Susan Witherow
