Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

The application proposes to alter the n. 2 shopfront façades of the store located on the ground floor of the building.

Monmouth Street Façade:

The existing external roller shutter, shutter guides and the metal plate above it will be removed in order to bring the entire shopwindow back to view. One-quarter of its height will no longer be hidden behind the roller shutter and metal plate. The timber frame will remain unaltered and will be painted a light grey color which is much more in tone with the colors of the surrounding properties. The big 650 x 800 mm top lit projecting sign will be replaced with a smaller 400 x 400 mm more elegant projecting sign with a single black back-lit letter on a light grey aluminum base. Since the shop does not have access to the roof area for supply and return air for the AC system, we have no other choice than to have return and supply air at the façade. We will remove the anti-aesthetical grills that there are currently on the shopfront and replace them with a wooden louvre painted the same color as the façade above the entrance door and n. 2 decorative metal grills will be installed in the decorative frames of the timber stall riser. There are many examples of these type of air supply and extract solutions on the facades all along Monmouth Street and in the Seven Dials Conservation area.

Neal's Yard Façade:

The existing external roller shutter, shutter guides and timber shopfront will be removed.

New timber fascia will be installed on the storefront line similar to the fascia on the Monmouth St. façade. The timber fascia will have the same height as the current shutter box in order to maintain the current façade proportions. The existing timber shopfront will be removed and replaced with timber frame folding/sliding glazed doors. There are numerous examples of other stores facing Neils Yard that have this type of shopfront with traditional timber fascia and folding timber doors. See photorender drawing 2310-5000 here attached showing neighboring properties with this type of shopfront.

The entire shopfront will be painted light grey.

No structural alterations are requested in this proposal.
