Subject: Planning Applications comments 2023/2510/P and 2023/2653/L One Museum Street

Dear Planning Team

RE 2023/2510/P and 2023/2653/L

I write to object to the above planning applications. My reason for objecting is the height and scale of the proposed new building on the Selkirk House site.

The proposed new structure will dwarf the surrounding buildings and ruin the character of the area due to its scale and size. I am also very concerned about the impact of light loss. I don't think anything higher than the existing Selkirk House (former Travelodge Hotel) building should be permitted.

Yours sincerely

Charles Green
