Section 35

The Contractor is to check and verify all building and site dimensions, levels and sewer invert levels at connection points before work starts. The Contractor is to comply in all respects with current Building Regulation Drawings, Specification (Building Regulations), Construction (Design & Management) Regulations, Party Wall Act, etc. whether or not specifically listed on this drawing. This drawing must be read with and checked against any structural, geotechnical or other specialist recommendation provided. This drawing is not intended to show details of foundation, ground conditions or general contaminants. Exact size of ground relief work to support any structure disclosed (including retaining) must be investigated by the Contractor. A suitable method of foundation should be provided allowing for existing ground conditions. Any suspect or fill ground, contaminates on or within the ground should be further investigated by a suitable expert. Any structure/outline shown indicates typical details for guidance only & should be further investigated by a suitable expert. (Where retaining these are to be retained they should be subject to a Pre Notice/Party Wall application for safety. All these are to be planned as an 'in' unless they are a minimum of 6 metres from buildings and 3 metres from openings and services. A suitable method of foundation is to be provided to accommodate the proposed tree planting.
Geoff Perry Associates Limited do not accept any responsibility for any further (financial or otherwise) to any Client or third party arising out of the Clients Re-Tender or Contractors bar re-Tender inaccuracies contained within these drawings.
