2023/4202/P	Dr. M. & Mrs. M. Hogh	16/11/2023 22:06:19	OBJ	We are owners of a neighbouring property and would like to raise our objection to the proposed dormer window at the front of 2 Mall Studios. While there are two other dormers to this aspect on the row of renowned historically-significant studios, they are both discreet and not visible from the approach. Nor do they impinge upon the privacy of neighbours. To allow such a large dormer will most definitely blight the view due to its size and position. There are no dimensions given, but the drawings indicate a much larger dormer than those existing and we feel it would not be in keeping with the beautifully preserved nature of The Mall Studios.
