

Dear Camden Planning

We are writing to express concern about the ongoing works at Flat A, 17 Chesterford Gardens which is adjacent to our property at 19 Chesterford Gardens. The approved planning application stated that this work would last six months from April to September, but it has already taken 8 months and appears still to be several months from completion. There have been what seem to be additional works not mentioned in the application, including drilling for a new electrical connection in the pavement and running external cables into the basement (which is subject to a separate planning application pending decision). We would like reassurance that the approved application is being adhered to, and that the timeline will be managed to get as close to the agreed timing as practicable.

Best regards

Martin Markus and Alice Morgan
