Subject: Planning Application - 2023/3407/P

Good morning

We are Philip and Mia Matthews, 6 Lancaster Stables, NW3 4PH, with a party wall with the applicant site.

Since previously supplying comments regarding this application it has come to light that the heat pumps do not meet acceptable sound levels and we don't feel we can support the development until the developer's claims about sound and vibration have been proven. If and when they are proven, there should be a post construction installation validation exercise to verify the levels of sound and vibration before occupation is allowed.
