Please provide a brief description of the building or part of the building you are proposing to demolish

Two single door openings are proposed to be formed at 2nd floor level. One is located in an internal partition and with the other being through the flank wall of the existing outrigger to provide access to the proposed extension in this location. These minor works are accompanied by other incidental works to remove modern doors and windows and other finishes to enable the works to be completed.

Why is it necessary to demolish or extend (as applicable) all or part of the building(s) and or structure(s)?

The building has been unsympathetically altered over the years and split into 5 separate flats, currently used as HMO. They are poor quality and not energy efficient.

By making these strategic alterations to the existing 2nd floor unit it will be possible to increase the existing minimum provision of kitchen and bathroom accommodation so as to vastly improve the quality of the accommodation, reconfigure the interiors to provide improved and enlarged, up-to-date kitchen and bathroom facilities and improve the standard of provision.

The works will also allow the relevant external fabric, glazing, and lighting to be upgraded (beyond Building Regulation requirements) and an area of green roof is proposed making the units far more effective in terms of energy use, in line with A3, CC1 and CC2.

Policies D1 and D2 have also been carefully considered and addressed and all works are felt to be in accordance with Paragraph 196 of the NPPF.
