Dear Geri,

Thanks for your email.

There was some confusion about the scale of the previously submitted drawing. I attach a revised drawing showing the planting of 9 Iceberg Roses at a spacing of 45cm and grown to a height of 90cm.

With regard to maintenance, my client advises that the following steps will be taken:-

- ∞ All plants will be regularly watered;
- ∞ Plant food will be used when required to maintain healthy growth;
- ∞ The plants will be pruned monthly in order to create a hedge with a maximum height of 90cm.

I look forward to hearing from you further.

Regards,
