Subject: Planning application 2023/3861/P

[REDACTED]

This is a letter in support of Planning Application: 2023/3861/P regarding the gates that open into the park. I believe the two points made by others are fair and important:

1. Gates are important to allow Royal Parks to manage the park access.
2. Existing gates are unsightly and permanent for purpose gates need to be installed

Thank you
Cristina castillo
