In the summary, the case officer concludes with:

The proposed mono-pitched roof extension and dormer are considered acceptable in principle given the context of similar neighbouring extensions. In regards to the front dormer, it is considered that it should be reduced in size to ensure it is a modest addition and should be relocated to match no.9 Perrins Lane.

The officer identified some concerns with the proposal namely;

The alterations to the façade including the replacement of windows and the creation of the porch for a new entrance should be omitted from any future planning application as it would harm the character and appearance of the host dwelling, terrace and the conservation area.

Overall, it is considered the erection of the two storey extension and first floor rear extension are inappropriate and should be omitted from any future planning application. As a result a solid replacement extension to replace the existing glazed extension would be more appropriate.

**(a) a member of staff**

**(b) an elected member**

**(c) related to a member of staff**

**(d) related to an elected member**

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

☒ No
