That's ok.

Can you send me an Email or PDF statement that states the total number of loads offsite at an average 18t per load and 100% diverted from landfill.  
It has to come from RMS for our client to accept it.

Thanks.

Regards - Pat

Hi,

Unfortunately we do not weigh our loads unless asked at the time which would have a weighbridge ticket with it, but on average the weight per load is 18 Tonne and all material is 100% Recycled.

Thanks,  
Federica

Afternoon Federica

They also require a percentage of waste material diverted from landfill, which I believe is close to 100% for our waste from Fitzrovia.

Hi Federica,

We are not after the spreadsheet please see my attached spreadsheet. We are just after the total tonnage weight removed from site in its entirety. This is for the clients project manager if you could provide that, that would be great. Any questions drop me a line.

Many Thanks

Katie
