2023/4698/P	Benjamin Davis	30/11/2023 12:17:19	OBJ	<p>I believe the planning application has multiple errors which need to be corrected, therefore I object.</p> <p>The Pergola is NOT discrete! It takes up nearly half the garden and height is above the existing boundary fence (this is miss stated in the application). It can be seen from multiple rear windows on the street and therefore contravenes the principles of the conversation area. The dark finish contrasts with the green setting of all the other gardens. There are no other ¿similar pergola proposals¿ in the area that match the size.</p> <p>Furthermore it is not correct to state that the Pergola falls "within the limits of permitted development"</p>
